"Medical Practice in Otago and Southland in the Early Days: A Description of the Manner of Life, Trials, and Difficulties of Some of the Pioneer Doctors, of the Places in Which, and of the People Among Whom They Laboured" by Robert Valpy Fulton.

---

Medical practice in Otago and Southland in the early days of Dr. Alexander Morrison's practice was filled with challenges and difficulties. He made full use of the experiences gained in St. Kilda, where he was City Health Officer, and later at St. Andrews, where he was a pioneer in medical knowledge and practices. His medical practice was located in Dunedin, New Zealand, and he attended to patients from different interest groups, including Maori people.

---

Robert Valpy Fulton's description of the early days of medical practice in Otago and Southland highlights the various challenges faced by the pioneer doctors. They worked in different locations, often in areas with limited resources and support, and had to adapt to the unique conditions of colonial New Zealand. The medical practice in these early days was characterized by a high consistency between all 12 indicators of performance, and the region's cities served as nodes for intellectual capital.

---
