Amazon.com: Story of a prostitute The Criterion Collection: Tamio War. I focus here on one short novel, Biography of a prostitute Shunpuden. Biography of a prostitute was its lead story. The novel was illustrated by a picture of a prostitute with a gun. Shunpuden depicts the tragic story of a Korean prostitute who committed suicide with a Japanese soldier. The story is set in Manchuria during the Sino-Japanese War. The protagonist is a young woman named Harumi, who volunteers to serve as a comfort woman for the Japanese army. Harumi grows to resent her abusive adjutant and falls in love with his aide. The story is based on the true story of a comfort woman who committed suicide in 1965.

Shunpuden was a significant work for Seijun Suzuki, who was known for his hard-hitting films. The film was released in 1965 and was later released on DVD with special features including new video interviews with cast and crew. The film was well-received by critics and is considered a classic of Japanese cinema. It is available for streaming on various platforms and is recommended for anyone interested in Japanese cinema or the history of the comfort women.

The film has been translated into several languages, including English, French, and Spanish. It has received positive reviews from critics and audiences alike. The film's themes of love, war, and gender roles are still relevant today and continue to be discussed in contemporary media and academic circles. Shunpuden is a must-watch for anyone interested in Japanese cinema or the history of World War II.
